ABOUT THE PARK

Established in 1941 to allow public recreation on Mille Lacs Lake, the park offers 320 acres of hardwood forest and sandy beach on the southeast shore. During your visit you can enjoy two campgrounds, a large group camp, boat accesses, fishing piers, and a popular quarter-mile-long natural sand beach. Walk trails through diverse habitat and watch for wildlife such as: bald eagles, osprey, ruffed grouse, white-tailed deer, raccoons and mink. The park was named in honor of Father Louis Hennepin, who wrote of the area in 1680 while on an expedition for King Louis XIV of France.

Stretch your legs along a natural sand beach.
